

BIMoS Newsletter 01/16

Dear BIMoS Members,

We would like to wish you all a happy, healthy, and successful New Year. We are looking forward to many exciting BIMoS Events this year starting with the 1. Distinguished Lecture on January 11. Also, the team of the first three BIMoS Fellows will be complete in January, with the second round of applications for the remaining three fellowships being currently evaluated. A BIMoS PhD seminar series will start soon organized by Sandra Keiper. Moreover, it is our intention for this year - also following the discussion at the BIMoS General Assembly - to further promote interdisciplinary interactions at the senior researcher level.

We would like to close this short New Year's newsletter with the current list of BIMoS events in 2016. All events take place in the Main Building, Room H 3005:
